We endeavor always to better serve the requirements of our increasing number of satisfied customers. In keeping with this firm policy we have made several important moves.

1. We again offer top grade bare root plant material, northern grown, priced to give you a good profit on immediate resale or on future sale after growing on in your nursery. Available early March. See *Special Section*.

2. Considerable B & B plant material will be available to save you time.

3. We have a special "canned stock" area which includes many items ready at all times for quick, neat pick up — Summer included.

4. We are growing an increasing number of rock garden plant material due to increased interest in this phase of landscaping. Items marked with dot (•).

5. Increased interest in unusual and rare plant material has prompted us to specifically locate and to also grow this type of material. Many such items are listed throughout catalog.

6. Your increasing patronage and faith in our reliability, quality of plants and service have enabled us to continue to grow. Because of this confidence we are adding to our "growing" nursery operation. This major step will enable us to better serve you with greater variety and in greater depth.
